Living after the others and living yourself instead

MARY THOMPSON

She lives in the UK and often offers help to other young people seeking success.

Success means doing it your own way, and being able to enjoy the fruits of your success. It's not about money, power, or fame. It's about being able to do what you want to do, and being able to enjoy the fruits of your success. It's about being able to do what you want to do, and being able to enjoy the fruits of your success. It's about being able to do what you want to do, and being able to enjoy the fruits of your success.

It's about being able to do what you want to do, and being able to enjoy the fruits of your success. It's about being able to do what you want to do, and being able to enjoy the fruits of your success. It's about being able to do what you want to do, and being able to enjoy the fruits of your success.

*"When you get 50 many people ask you:
did you get all you wanted ir?"*

It's about being able to do what you want to do, and being able to enjoy the fruits of your success. It's about being able to do what you want to do, and being able to enjoy the fruits of your success. that is not very far.
Man has so much farther to
go within himself."
